

Accessibility statement for Eye Town Council

This website is run by Eye Town Council. We want as many people as possible to be able to use this website. For example, that means you should be able to:

- change colours, contrast levels and fonts
- zoom in up to 300% without the text spilling off the screen
- navigate most of the website using just a keyboard
- navigate most of the website using speech recognition software
- listen to most of the website using a screen reader (including the most recent versions of JAWS, NVDA and VoiceOver)
- find information contained in difficult to navigate tables within a text block or other accessible format on the same page

We have also made the website text as simple as possible to understand.

[AbilityNet](#) has advice on making your device easier to use if you have a disability.

How accessible is this website?

We know some parts of this website are not fully accessible:

- you cannot modify the line height or spacing of text
- most older PDF documents are not fully accessible to screen reader software
- some of our online forms are difficult to navigate using just a keyboard.
- you cannot skip to the main content when using a screen reader

What to do if you cannot access parts of this website

If you need information on this website in a different format like accessible PDF, large print, easy read, audio recording or braille:

- email townclerk@eyesuffolk.org
- call 07713 196251

We will consider your request and get back to you in 10 working days.

Reporting accessibility problems with this website

We're always looking to improve the accessibility of this website. If you find any problems not listed on this page or think we're not meeting accessibility requirements, contact the Town Clerk at townclerk@eyesuffolk.org giving the page title and the nature of the problem.

Enforcement procedure

The Equality and Human Rights Commission (EHRC) is responsible for enforcing the Public Sector Bodies (Websites and Mobile Applications) (No. 2) Accessibility Regulations 2018 (the 'accessibility regulations'). If you're not happy with how we respond to your complaint, [contact the Equality Advisory and Support Service \(EASS\)](#).

Technical information about this website's accessibility

Eye Town Council is committed to making its website accessible, in accordance with the Public Sector Bodies (Websites and Mobile Applications) (No. 2) Accessibility Regulations 2018.

This website is partially compliant with the [Web Content Accessibility Guidelines version 2.1](#) AA standard, due to the non-compliances listed below.

Non accessible content

The content listed below is non-accessible for the following reasons.

Images

Some images do not have a text alternative, so people using a screen reader cannot access the information. This fails WCAG 2.1 success criterion 1.1.1 (non-text content).

We plan to add text alternatives for all images by September 2020. When we publish new content, we will make sure our use of images meets accessibility standards.

Navigation and accessing information

There's no way to skip the repeated content in the page header (for example, a 'skip to main content' option). This fails WCAG 2.1 success criterion 2.4.1 (bypass blocks).

It's not always possible to change the device orientation from horizontal to vertical without making it more difficult to view the content. This fails WCAG 2.1 success criterion 1.3.4 (orientation).

It's not possible for users to change text size without some of the content overlapping. This fails WCAG 2.1 success criterion 1.4.4 (resize text).

Interactive tools and transactions

Some of our interactive forms are difficult to navigate using a keyboard. For example, because some form controls are missing a 'label' tag.

Our forms are built and hosted through third party software and 'skinned' to look like our website. This fails WCAG 2.1 success criterion 1.3.1 (information and relationships).

We've assessed the cost of fixing the issues with navigation and accessing information, and with interactive tools and transactions. We believe that doing so now would be a [disproportionate burden](#) within the meaning of the accessibility regulations. We will make another assessment when the supplier contract is up for renewal.

Content that's not within the scope of the accessibility regulations

PDFs and other documents

Many of our older PDFs and Word documents do not meet accessibility standards – for example, they may not be structured so they're accessible to a screen reader. This does not meet WCAG 2.1 success criterion 4.1.2 (name, role value).

Some of our PDFs and Word documents are essential to providing our services. For example, we have PDFs with information on how users can access our services, and forms published as Word documents. By September 2020, we plan to either fix these or replace them with accessible HTML pages.

The accessibility regulations [do not require us to fix PDFs or other documents published before 23 September 2018](#) if they're not essential to providing our services. Any new PDFs or Word documents we publish will meet accessibility standards.

Live video

We do not plan to add captions to live video streams because live video is [exempt from meeting the accessibility regulations](#).

How we tested this website

This website was last tested on 6th August 2020. The test was carried out by ourselves. We used this approach to decide on a 40% sample of pages to test with static content, links and pictures.

We tested our main website platform, available at <https://www.eyesuffolk.org/town-council/>

What we're doing to improve accessibility

The testing included an action plan to improve those areas which are non-compliant. This will be reviewed and monitored by the Finance and Governance Committee.
