

What is Time ... a moment, a memory, a season, a sequence, a beat? The Timekeeper and Miss Timed lead the audience in exploring all of these and more.

Tick Tock! is being developed by Eye Arts Club from an original Greenfingers Productions show which toured with professional actors 2013 to 2015.

It is a multisensory show including interactive projections, beautiful songs, funky music, rhythms and dance.

Eye Arts Club is a charity which runs arts projects for 7 to 17 year olds. It enables them to learn skills in art, dance, acting, film, animation, or singing. They can develop confidence in performance while having fun. Support is provided for those with additional needs.

Greenfingers was established in 2006 to create shows for people with additional needs owing to disability, age, or sensory impairment.
